

Dino Adventure Amusement Machine

Brand new to the market, this small footprint, highly impactful amusement machine is absolutely fantastic and immensely popular with children and adults alike. Players get to shoot 'real' plastic balls at the touchscreen monitor from the front mounted gun. The touchscreen is fully interactive and animated and the plastic balls are contained behind a plastic screen. The sound of the balls hitting the screen, combined with the vibrant dinosaur battle animation which scores points and has interactive sound effects throughout the game, makes it a real 'hot shot' product.
