

## Hurricane Simulator Amusement Machine

The Hurricane Simulator amusement machine is exciting for both adults and children. Guaranteed to pique interest, it provides a great way to earn extra revenue and keep people on your premises for longer.

Our Hurricane Simulator has space for up to four children and is suitable for both indoor and outdoor use. A built-in video screen shows flying debris, which combined with the simulated wind and sounds makes for an immersive experience.

The machine offers a surprisingly refreshing experience and has proven a hit at trampoline parks and other locations where customers may need to cool down. To make things even better, it even accepts card payment.
