

## Wildlife Pics Two Player Amusement Arcade Machine

DON'T SHOOT - well not with a gun anyway, but with a camera!

Players sit inside this amusement machine and ride through the virtual jungle on their raft using the cameras mounted on the machine to take pics of all the jungle animals they see on the riverbank.

They sail by on their raft and win medals on the scoreboard for accurate camera shots of the animals.

With realistic jungle sound effects and images displayed on the internal high quality LCD monitor, this really is an immersive and educational player experience.

The coin op Wildlife Pics amusement arcade machine is very well suited to players of all ages and VERY good fun too.

The coin operated Wildlife Pics machine can even be set on ticket redemption and is also available with a Nayax contactless payment system option if required.
