

Peppa Pig Rocket Kiddie Ride

Kids can travel to the moon with Peppa Pig on this exciting rocket kiddie ride. A great addition to a number of different venues, this ride will keep children entertained and increase takings on your site.

The ride features a display showing Peppa Pig characters on the moon with our solar system's planets above. Buttons below the display when pressed prompt Edmond Elephant to tell kids about the corresponding planets. This provides an educational experience, teaching kids the names and order of the planets.

To make kids feel like they're really astronauts, the ride features rocket noises and even a countdown to blast off. There's enough room for two kids on this ride.
