

iX Simulator Kiddie Ride

This exciting virtual reality machine will look irresistible to kids on your site. As a result, it will bring more children (and parents) in, providing them with both entertainment and more time to browse what's on offer.

The iX Simulator comes in brightly-colored fiberglass, with stereo sound and 27-inch TFT screen for a totally immersive experience. It even rocks to mimic on-screen movement and uses air ducts to further improve the simulation.

Available as a one or two-seater, the iX Simulator has four distinct game modes for kids to enjoy: Astro Pinball, Safari Adventure, Ravine Racer, and Space Mission.
