

Sam Evo Curved Bed Air Hockey Table

SAM Slalom Evo Curved Bed Air Hockey Table – Slalom’s curved playfield brings a whole new dimension to air hockey. Trick your opponent and swing in off the high bank or power through the middle straight at the goal! Offers a modern and attractive variation of the traditional air hockey table. It is packed with new features and design materials to ensure it is the fastest and most exciting game on the market. Striking new cabinets distinguish the distinct models, but uniform illumination gives a range identity for a truly impressive on the floor presence.

The introduction of the revolutionary new ‘methacrylate’ playfield by SAM has enabled the launch of a new generation of Air Hockey tables. A modern stylish table with exciting new features that take air hockey to another level.

Variable illumination:

Colour change LEDs in the legs and top rails, illuminated puck exits to give a variety of colour change options.
