

## Coin Operated F1 Racing Car Track Ride

We are delighted to offer this blue battery powered track ride for sale. Coin operated, it can be programmed for a chosen speed, volume and ride time.

This F1 racing car ride goes in a track area and is designed to seat a child and adult together or one of each and they are HUGE fun and VERY popular in any family leisure venue.

Our coin operated track rides work well when they are operated with other types of battery ride vehicles on the same track, such as quad bikes, Jeeps and motorbikes, we also sell and stock the full range of these too.
