

Battery Operated Track Ride F1 Racing Car

This fantastic red coin operated, battery powered racing car is based loosely on the real life F1 version.

With its fully programmable speed, time and ride time setting, this battery racing car is designed to be operated within a track area and will prove VERY popular in any family leisure attraction venue.

Coin operated, this racing car track ride can seat an adult and child at the same time, meaning that nobody ever has to miss out on the racing fun.
