

## Hungry Mice Amusement Arcade Machine Game

Brightly coloured, impactive and great fun for all ages – the wide play area at the front of the machine means that families and groups of people can play together at the same time too.

Players slide the balls quickly up the channels at the front of the machine, the balls then travel at speed towards the big LCD screen, time it right and the balls bash the mice running around on the screen and score points.

This is a very active and immersive arcade video game, the mice frantically run around on the screen trying to dodge the balls as they slide up towards them at speed.

With its fantastic loud sound effects and bright illumination, the Hungry Mice arcade machine is a fast paced, lively, fun and interactive arcade machine game and it will get people playing on it over and over again.

P.S The balls are on sliders and fixed within the machine too so they wont get detached or go missing.
